Bionic Dual AI Vision Camera

Two ultra high definition cameras with 4K clarity detect debris and obstacles for highly accurate, smart cleaning.

AI technology analyses what the cameras detect, allowing the cleaner to automatically adjust its path and suction.

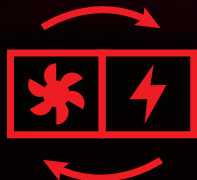

Up To 16 Hours Of Cleaning Per Charge

AI-Inverter Technology

Works with the battery to extend endurance up to 16 hours.

Energy Efficient Coupling

Dual DC brushless motors and inverter technology minimise power draw.

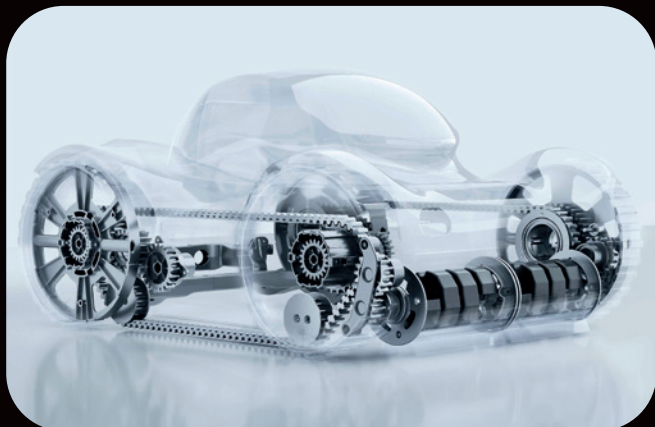

Hydrodynamic Structure

Sleek design reduces water resistance for efficient cleaning.

Dual DC Brushless Motors With Dual Drive Belts

For enhanced manoeuvrability and go-anywhere traction. Suitable for all pool surfaces.

Hassle-Free Retrieval With The Sonar Return Device

Sonar-activated signal enables instant return to the waterline for easy retrieval.
